

# Bio Pro 365™

## Prebiotic Probiotic Blend

### Product Summary

Bio Pro 365™ is a comprehensive and clinically-tested pre- and probiotic blend specifically designed to protect and enhance all aspects of the digestion process. Seven unique probiotic strains are combined with prebiotic and digestive blends, to better “re-calibrate” the body to efficiently use the nutrients in our food. And maybe most important, it helps us feel better all day long as we enjoy the physical, mental, and emotional benefits of healthy digestion.

### Key Benefits:

- Re-calibrates the body for healthy digestion.
- Helps improve better absorption of nutrients from food\*
- Improves overall mood and symptoms of anxiety\*
- Improves mental cognition and heart health\*

### Ingredients

**Probiotic Blend** contains seven scientifically proven strains at a potency of 25 billion colony-forming units, with proven survival in the human digestive tract. This blend works to ensure your body is absorbing key nutrients from your diet while helping lessen minor abdominal discomfort and bloating. It also works to provide support against inflammation and allergies and helps to improve your heart health by lowering blood pressure and cholesterol levels. This blend has also been proven to significantly increase mental cognition and improve mood.

**Prebiotic Blend** boosts the vitality and survivability of the probiotic blend in the digestive tract for maximum effectiveness. It also works synergistically with the probiotic to help minimize symptoms caused by food sensitivities.

**Digestive Blend** is a potent blend of digestive enzymes specially formulated to aid in proper digestion of a typical modern diet. This includes helping to increase absorption of key nutrients and minimizing the abdominal pain, bloating and general discomfort associated with food sensitivities.

## Product Background

Human diets have changed significantly over the centuries—foods and ingredients that are common today were not available hundreds of years or even decades ago. With all the factors associated with the production of food (soil conditions, chemicals, bio-engineering, processing, packaging, preservatives, etc.), the body's ability to digest and effectively use food has drastically changed. As a result, we're seeing more and more evidence of food-based, digestive problems, including allergies and intolerance to gluten and lactose, among others. To put it simply, more and more people do not feel good after they eat. Gastrointestinal difficulties not only make us feel bad, it effects the rest of our health as well. Recent research suggests that the health of the human biome in the gut, where up to 90% of the serotonin found in the body is produced and used, also directly affects serotonin production in the brain and is extremely important in supporting overall positive mood. As our food becomes more processed, the importance of good digestion becomes paramount—we need help!

Bio Pro 365™ combats the stress and strain that a modern food supply (particularly the typical American diet) puts on the digestive system. Influenced by traditional Chinese medicine that has been proven to work for centuries, Bio Pro 365™ helps to “re-calibrate” the body to use the nutrients in the food we eat. And maybe most importantly, it helps us feel better not only after we eat, but all day long as we enjoy the physical, mental, and emotional benefits of healthy digestion.

## Benefits and Features

- Promotes healthy digestion\*
  - Helps improve absorption of nutrients from food and supplements\*
- Helps reduce occasional diarrhea or constipation\*
- Fights hypersensitivity, allergies and inflammation\*
- Provides colon health support\*
- Supports a healthy immune system\*
  - Fights and prevents infection\*

- Improves overall mood and helps alleviate symptoms of anxiety\*
- Improves cardiovascular health as blood pressure and cholesterol are lowered\*
- Promotes healthy blood sugar levels\*
- Improves mental cognition\*
- Formulation influenced by centuries of wisdom in traditional Chinese medicine\*

## What Makes This Product Unique?

Bio Pro 365™ is guaranteed to contain 25 billion live CFUs by the end of the product shelf life. It contains seven clinically tested strains as well as prebiotics to ensure the effectiveness and survivability of these strains in the gut. Made with veggie caps, it has a 1-year shelf life. No refrigeration needed.

## Who Should Take this Product?

Anyone with acute gastrointestinal complaints or wishing to achieve better digestion and benefits from the food they eat should take this product. Only those over the age of 16 should use this product.

## FAQs

### **Q: Why do I feel bad after I eat?**

**A:** Irritants, chemicals, food allergies and sensitivities contribute to us feeling bloated, gassy, and uncomfortable after we eat. Bio Pro 365 is meant to help alleviate the general discomfort associated with eating. Changes in how you feel when you start a probiotic are normal, any initial feelings of being bloated or gassy should quickly fade.

### **Q: Does this change my digestion permanently?**

**A:** There are many things that affect digestion on a day to day basis – including, but not limited to, the foods you eat and your physical health. Bio Pro 365™ has been designed to positively affect your digestion while you take it. Going off of the product could result in a return of your previous digestive issues.

## Suggested Use

Take 1 capsule daily with food and eight (8) ounces of water.

## Guarantee

Bio Pro 365™ is guaranteed to contain 25 billion live CFUs by the end of the product shelf life of one year.

## Fact Panel

Supplement Facts		
Serving Size: 1 Capsule		
Servings Per Container: 30		
	Amount Per Serving	%DV
<b>Proprietary Probiotic Blend</b>	<b>25 billion viable organisms *</b>	
<i>Lactobacillus acidophilus, Lactobacillus rhamnosus, Lactobacillus paracasei, Lactobacillus plantarum, Bifidobacterium lactis, and Bifidobacterium bifidum</i>		
<b>Proprietary Digestive and Immune Blend</b>	<b>200 mg</b>	*
Astragalus Root Extract		
DigeSEB®		
Dong Quai Root		
FOS (fructooligosaccharides)		
*Daily Value Not Established		

**Other ingredients:** Vegetable Cellulose (capsule), Magnesium Stearate, Microcrystalline Cellulose, and Silica  
Gluten Free
